As a fresh graduate in Computer Science major in Social Computing, I am seeking a work-from-home opportunity where I can apply the knowledge and skills I gained from my academic journey into real-world professional settings. I aim to contribute meaningfully to a dynamic team, grow in a remote work environment, and gain hands-on experience in the corporate world.

AREA OF EXPERTISE

Microsoft Office	Canva Graphic Editing	HTML/CSS
Basic Computer Knowledge	UI/UX Designing	Documentation

PROJECTS

- **Cease the Ships | UI/UX Designer.** It is a naval-themed board game app developed as a thesis project.
- **Paws Army Website | UX/UX Designer, Researcher and Documentation.** This is a website for a veterinary clinic, created as a project for Introduction to Computing and Digital Media 1.
- **2D Interactable Environment | UI/UX Designer.** It is a simple collaborative Christmas project developed together with my college friends.
- **Lost World | UI/UX Designer.** It is a web application created as a project for Elective 3 (Game Development 3) subject.
- **MAMBAGONG Destination Booking System | UI/UX Designer, Documentation, and Researcher.** A project developed using Netbeans and Java programming language for Computer Programming 2 subject.
